EDUCATION

B.Tech Computer Science

AI & ML Specialization

Lovely Professional University

3rd Year — 2022-2026

CERTIFICATIONS

Infosys — DBMS

Infosys — C++

Infosys — C

SKILLS

Python

Machine Learning

TensorFlow / Scikit-learn

JavaScript / React

FastAPI

Java / C++

SQL / DBMS

Git & Linux

Gemini API / LLMs

LANGUAGES

English — Fluent

Hindi — Native

RISHU RAJ

AI/ML Engineer & Software Developer

PROFESSIONAL SUMMARY

CS undergrad at Lovely Professional University specializing in Artificial Intelligence & Machine Learning. Passionate about building intelligent systems that combine engineering precision with real-world utility. Experienced in Python, ML frameworks, and full-stack AI application development.

PROJECTS

IRA — Intelligent Responsive Assistant 2025 – Present

Python · React · Gemini API · FastAPI

- Built a JARVIS-style personal AI assistant that controls apps, runs system commands, and responds to natural language
- Integrated Google Gemini API for conversational intelligence and FastAPI for backend communication
- Building toward voice interaction, persistent memory, and screen understanding

CodeExplain — Plain-English Code Tutor 2025

Streamlit · Python · Gemini API

- Developed a Streamlit app that explains source code line-by-line in plain English for learners
- Features: complexity analysis, bug review, and AI-generated quiz questions per code snippet

PSO Credit Card Default Prediction 2024

Python · Scikit-learn · Jupyter · ML

- Applied Particle Swarm Optimization to tune ML model hyperparameters on a real finance dataset
- Outperformed standard baseline models in predicting credit card default risk

EXPERIENCE

AI Engineer & Developer 2024 – Present

Self-directed · Open Source

- Built and shipped multiple AI-powered applications using Python, Gemini API, and ML frameworks
- Maintained public GitHub repositories with documentation for the developer community
